

## Kindergarten Scholarship Application

The purpose of the Kindergarten Scholarship is to provide a financial supplement for tuition costs during the third, or 'kindergarten' year, for students at Missoula Christian Montessori School. We appreciate that deciding on a private Montessori education for your child for the kindergarten year (age 5-6) is a choice, and we wish to honor your commitment to the Montessori philosophy.

This scholarship is awarded in late May, to be dispersed as monthly supplemental funds in the following academic year, noted as a credit on each monthly invoice. *This is a private scholarship offered at the discretion of Missoula Christian Montessori School. Five Day attendance is required for all students participating in their third, or 'kindergarten' year at MCMS.*

The Kindergarten Scholarship will be awarded to between 1 and 4 applicants per year based on a lottery system and funds available on a yearly basis. To be included in this lottery, all applicants must fulfill the following requirements:

1. The student must be entering into their third year with MCMS.
2. All applications must be returned by February 18th along with an application for re-enrollment.
3. Throughout the students time at MCMS, the parents and family of the student must have shown a commitment to learning about and participating in the Montessori philosophy as applied to child development.
4. Throughout the students time at MCMS, members of the family must have shown support of the program through volunteerism and/or financial donations.

To apply for this scholarship, please complete and return the following page. Once your application has been processed and accepted, it will be added to a lottery system in which between 1 and 4 families will receive awards based on eligibility and funds available. You will be notified of your award amount in late May. You will receive a Volunteer Contract, which one signed and returned, will finalize your award.
